Kupilka cup 37
2018

AWARD WINNING PRODUCTS

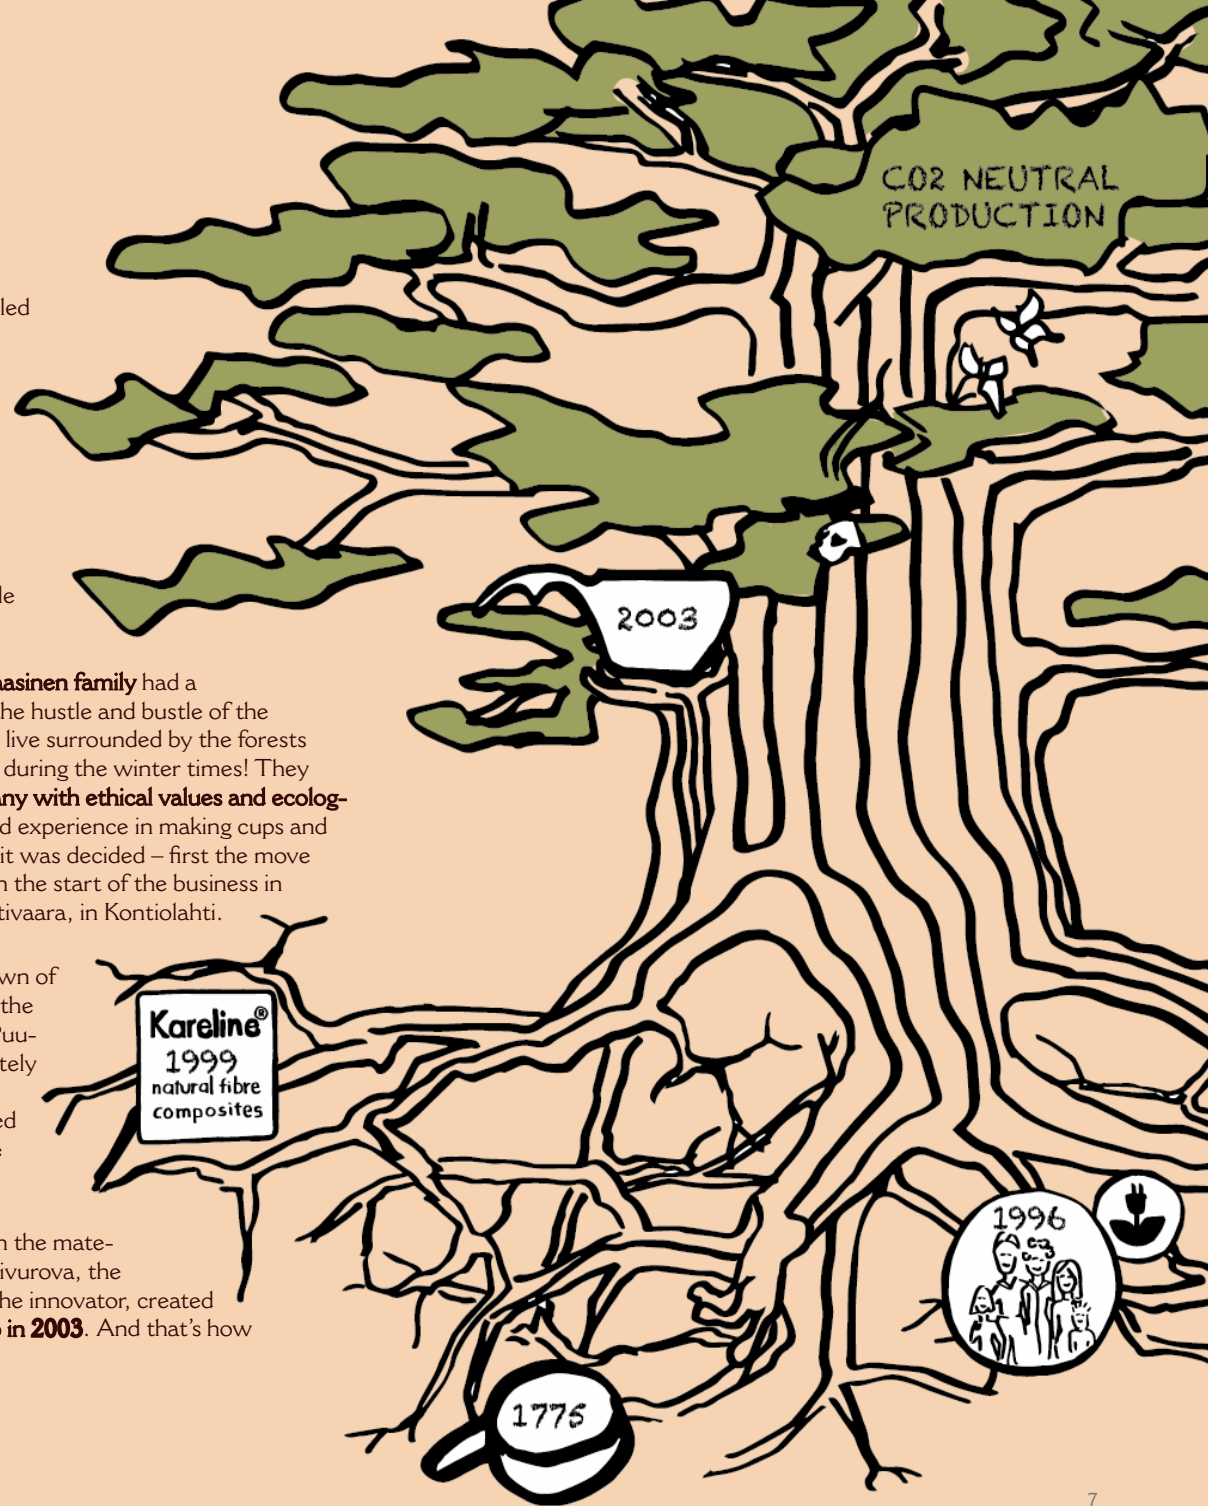

First there was a cup.

In **1775** there was a man called Kuisma, who was brewing some alcoholic beverages. He carved a cup, using the knowledge of his ancestors, to taste the homebrew. Later, the cup received the nickname HARAKKAKUPPI (The Magpie Cup), and became the first Kupilka style cup on record.

Over 200 years later, the **Kaasinen family** had a dream to move away from the hustle and bustle of the Helsinki capital area, and to live surrounded by the forests and lakes; and piles of snow during the winter times! They wished to establish a **company with ethical values and ecological mindset**, having gathered experience in making cups and bowls for 25 years. And so, it was decided – first the move to Eastern Finland, and then the start of the business in **1996** on a beautiful hill, Pyytivaara, in Kontiolahti.

Meanwhile in the nearby town of Joensuu, the researchers in the Wood Technology Centre Puugia were developing completely new type of materials from the Finnish wood, later called **KARELINE® Natural Fibre Composites**.

Knowing each other through the material development, Heikki Koivurova, the designer, and Kari Kuisma, the innovator, created the classic **KUPLKA 21 cup in 2003**. And that's how Kupilka's journey began...

WE CARE CO2 NEUTRAL PRODUCTION

Kupilka is committed to race to zero.
(0,23kg CO2 = equals to growing 2kg of potatoes)

All waste flows of the production phase are re-used.
Electricity used in the production is carbon neutral
(EKOenergy). Heating of the factory is
performed using waste heat flows and carbon
neutral electricity.

The study was performed in accordance with the
main principles of ISO 14040 and ISO 14044.

KUPIILKA MATERIAL

The custom-made material for Kupilka is called Kareline BioNFC and it is made on the hilltop of Pyytivaara, Finland. The Natural Fiber Composite is 62% bio-based, and it consists of 50% Nordic soft wood cellulose from the certified Finnish forests and 50% food-grade polyolefins.

Kupilka® fulfils the food safety requirements of EU No 10/2011 and EC No 1935/2004 §3.

Dishwasher safe: yes
Microwave, stove, open fire: not recommended
End of life circle: burned for heat or recycled

Packaging material: recycled cardboard

25 years of
EKOenergy

NEXT GENERATION IN MIND

Nature preservation: Kupilka is committed to race to zero. John Nurminen foundation charity Saving the Baltic Sea and its heritage ect.

Active outdoor life: Sleep The Night Out event organised by Suomen Latu. Finnish baseball and local juvenile ice hockey practice ect.

Less fortunate and students: Long term Plan International godchild sponsorship. We employ students and offer internships.

Local: printing brochures & labels, stand design & displays, Kolo-design packaging, teknical support ect.

Have you climbed down to a Giant's Kettle (Miel's Ohuru)?

*Hear the whisper of the forest, the stories of the nature,
Life is gathering to create. Listen, will the tree fall to
save you, or is it giving home to someone new?*

CUPS

placeet...

KUPIILKA 5 Shot cup

Perfect for either espresso, ginger shot or your favourite liqueur. With the reindeer leather cord tied in the handle you keep this jewel-like and delicate cup safe worn around your neck.

Dimensions: height 57 mm × width 43 mm × length 78 mm

Weight: 26 g
Volume: 5 cL

Materials: Kareline BioNFC, Reindeer leather cord: Reindeer leather is uniquely soft, thin and durable. It is considered to be an ethical option as reindeers live most of their lives free and the leather is obtained as a by-product of food production.

KUPIILKA 12 Junior cup

The very own cup of the youngest adventurers of the family as it fits the small hand perfectly. The cup brings nature closer to the little traveler and inspires to explore.

Tip: Kupilka 12 works great for a double espresso for a bigger adventurer!

Dimensions: height 50 mm × width 76 mm × length 135 mm

Weight: 49 g
Volume: 0.12 L

Materials: Kareline BioNFC, Jute cord
Packaging material: Cardboard from responsible managed forests, recycled

KUPIILKA 21 Classic cup

The very cup that started the new era of outdoor dining in 2003. The roots of the design are deep in history, and we fine-tuned the cup to be even better than before. Kupilka 21 is a durable travel companion that keeps your drink hot without burning your fingers.

Dimensions: height 60 mm × width 93 mm × length 165 mm

Weight: 89 g
Volume: 0.21 L

Materials: Kareline BioNFC, Jute cord
Packaging material: Cardboard from responsible managed forests, recycled

KUPILKA 30 Tall cup

Minimalistic and handleless cup designed for the urban adventurer. The cup has three built-in ridge lines that make it ergonomic and sturdy to hold and improve its durability and insulation properties.

Dimensions: height 116 mm × width 82 mm × length 82 mm

Weight: 130 g
Volume: 0.3 L

Materials: Kareline BioNFC, Jute cord

KUPILKA 37 Large cup

Return to simplicity where one cup is all you need. With its generous 3,7 dl volume this two-in-one cup is perfect for both lunch soup and afternoon tea. After the break a journey in to the unknown can continue!

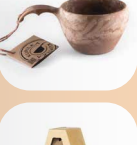

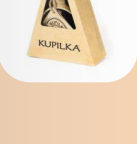

Kupilka 37 is awarded in 2018 as Scandinavian Outdoor Award, Hardware Accessories Winner.

Dimensions: height 74 mm × width 112 mm × length 180 mm

Weight: 134 g
Volume: 0.37 L

Materials: Kareline BioNFC, Jute cord
Packaging material: Cardboard from responsible managed forests, recycled

One day while sitting around the campfire, my grandpa reached for my cup and said, "Kupilka is an old name, from times way back. Even in ancient times it was a tradition to sit around the fire and drink from a small cup. Sometimes a hot drink, sometimes something sweeter. When evening came, your own Kupilka was like your best friend; it signalled a time to listen to stories, to the waves on the lake and the trees in the forest."

KUPIILKA KAARNA S Serving tray

Bring a little piece of nature to every meal! KAARNA S-SMALL SERVING TRAY is great for breakfast setting or a afternoon sandwich.

Dimensions: height 8 mm x width 154 mm x length 245 mm

Weight: 243 g

Materials: Kareline BioNFC, Jute cord

KUPIILKA KAARNA M Serving tray

On KAARNA M-SERVING TRAY you can set your favourite cheeses and fruits beautifully for the evening cathering and bring a little piece of nature to table at the same time.

Dimensions: height 8 mm x width 223 mm x length 270 mm

Weight: 391 g

Materials: Kareline BioNFC, Jute cord

One day while sitting around the campfire, my grandpa reached for my cup and said, "Kupilka is an old name, from times way back. Even in ancient times it was a tradition to sit around the fire and drink from a small cup. Some times a hot drink, sometimes something sweeter. When evening came, your own Kupilka was like your best friend; it signalled a time to listen to stories, to the waves on the lake and the trees in the forest."

ACCESSORIES

KUPILKA LINEN BAG

Dish bag keeps your Kupilka-dishware organized and fresh, and is handy to grab along in the backpack. Hand-made linen bag fits whole Kupilka setting for one or soup set for two.

Width: 22 cm

Height: 33 cm

Weight: 50 g

Materials: Linen, Jute cord

OKSAVA Usb- stick

OKSAVA USB-THUMB-DRIVE is a graceful way to store your important files and memories. A gift idea for a couple celebrating their wedding or youngster having their graduation to store their most memorable moments.

Dimensions: height 10 mm × width 26 mm × length 46 mm

Weight: 8.5 g

Capacity: 8 GB

Materials: Kareline BioNFC

KUPILKA 1 MINI With leather cord

This jewelry like KUPILKA 1-MINI CUP can be worn around the neck with the reindeer leather cord tied in the handle of the cup. Mini-Kupilka serves as a coffee or table-spoon measure both indoors and outdoors.

Dimensions: height 24 mm × width 37 mm × length 66 mm
Weight: 6 g
Volume: 15 mL

Materials: Kareline BioNFC, Reindeer leather cord: Reindeer leather is uniquely soft, thin and durable. It is considered to be an ethical option as reindeers live most of their lives free and the leather is obtained as a by-product of food production.

KUPILKA 1 MINI Coffee measure

KUPILKA 1-MINI CUP for measuring - a heaping scoop for 7 grams of coffee or fill up to the brim for 15 ml table-spoon measure. This cute and delicate mini-Kupilka goes along with you for example as a key chain.

Dimensions: height 24 mm × width 37 mm × length 66 mm

Weight: 6 g

Volume: 15 mL

Materials: Kareline BioNFC, Jute cord
